Experience

Front end developer — Jovitec Technologies *in Nairobi, Kenya*
June 2022 – August 2022

- Collaborated with a team of designers and developers to create a responsive and user-friendly front end design for Jovitec Technologies' corporate website.
- Utilized HTML, CSS, and JavaScript to develop interactive and visually appealing web pages, ensuring a seamless user experience across all devices.
- Implemented design elements that aligned with the company's branding guidelines, resulting in a cohesive and professional online presence.
- Conducted user testing and gathered feedback to refine the website's layout and functionality.
- Worked closely with the back end development team to integrate dynamic content and ensure optimal performance of the website.

IT Consultant — *Uncommon Traders (Remote role)*
January 2023 – November 2023

- Led the software operations and maintenance for Uncommon Traders, ensuring all systems functioned efficiently and met business needs.
- Managed and maintained key software platforms, contributing to an increase in operational efficiency through optimized workflows.
- Collaborated closely with the IT team to implement and troubleshoot software solutions, reducing system downtime significantly.
- Provided expert guidance on software upgrades and technology solutions, enhancing the company's overall IT infrastructure.
- Acted as the primary point of contact for resolving complex technical issues, ensuring prompt and effective resolution to minimize business disruptions.

Education

Bachelor of Business and Information Technology
The Co-operative University of Kenya
9th September 2019 - 1st December 2023
